Founder's Legacy

MKK Metal Sections Pvt. Ltd., was setup in 2008 by Late Mr. Mahesh Kumar Khandelwal for production of high quality ERW Pipes and Tubes. With his strategic planning, meticulous financial management, focus and vast industry experience spanning over three decades, MKK has since only flourished.

With an annual production capacity of 5,00,000 MT and a product range spanning over a thousand varieties of Circular, Square, Rectangular and Octagonal MS Black Pipe & Hollow Sections, Galvanized tubes and structures, Solar Module Mounting Structures, Shutters, Purlins, Color Coated Roofing Sheets, and various other cold roll formed sections, MKK is the largest steel product manufacturer in South India. In keeping up with the times and having a consistent eye for growth, we now also specialize in Warehouse Racking Systems & Metal Crash Barriers.

Moving ahead, MKK has set up a new state-of-the-art integrated plant which will specialize in Hot Dip Galvanizing of pipes and Structures. It can galvanize structures which are upto 9 meter in length and will increase our capacity by 60000 tons per annum. Our focus is to continually improve customer satisfaction by providing all services in-house.

MKK has always measured its growth in line with the value addition it has been able to provide its customers with. This value addition has been possible because of its fully integrated, ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 awarded manufacturing facility. R&D initiatives are constantly on at our workshops to enable us to lead the market with our value-added products that meet the evolving needs of a wider range of evolving automobile, construction, lifting and excavation and such industries.

Today, METPRO is synonymous with commitment, innovation backed with a never-say-no attitude, trust and without a doubt, quality.

Being the trusted suppliers of L&T, Ashok Leyland, Siemens Gamesa, Mahindra Susten, TATA Power Solar, Bharat Heavy Electricals Ltd., Adani Group and such, our quality speaks for itself. From Airports, Railway Stations, Malls, Metros, Solar Plants, Industrial and Residential Complexes, MKK has silently been a part of the country's biggest infrastructure projects.

"Work so hard, that luck has no option but to favour you"

- Shri. Mahesh Kumar Khandelwal

Born on December 22nd 1952, in the heart of the country, Gwalior, Late Shri. Mahesh Kumar Khandelwal stepped into the Iron & Steel Industry with his own trading firm in 1981, in Chennai.

From then on, his vision led him to become a major player in the pipe and tube industry. By the early 2000's, he had his heart set on building a steel plant that could constantly add value to the industry, he made sure all mills were built with avant grand technology and his workers were always well taken care of. His efforts along with his keen business sense propelled the company to grow five fold. At the Ranipet factory in Tamil Nadu, one can see the plans he created for the steel company he had dreamt of and pursued for years.

But above all, he was known for his philanthropy and dream to educate India. Through various organisations he supported education for the under-privileged, built schools to promote girls education in remote villages and also contributed in making sheds for gaushalas.

Maheshji was consumed with the passion to play a critical role in India's Make-In-India campaign and make the country's presence stronger on the global front. He laid the foundation of a galvanising plant, planned for bigger mills for ERW pipes, top of the line roll forming and a very strong infrastructural base for exports. Sadly, not all of these were materialised while he lived, but the seeds he laid, the work he did and the force of will he displayed, only push us harder in taking his inestimable legacy forward.

Our founder recognized for our green initiative by the Former Union Finance Minister Mr. P Chidambaram

Mission

To continuously strive, excel and guarantee value addition in terms of quality, customization and service of our products while being sustainable and environmentally conscious.

Vision

To play a pivotal role in building a strong infrastructural backbone for India while continuously building a community of strongly knit partners both within and outside the company.

A versatile business group with strong foundation

Milestones

2008

Commissioning of 5 tube mills at SIPCOT, Ranipet, Tamil Nadu, India.

Capacity:
1,00,000 MTPA

2010

Acquired new identity with registered brand name: **METPRO**

2010

Received **ISO 9001:2000** certification.

2015

Keeping up changing times, started production of **Solar Mounting Structures** Fixed and rotary.

2018

Three wider width mills commissioned
Capacity ramped up to **1,50,000 MTPA**.
Pioneer in R&D, developed the octagonal pipe.

2019

First in South India to manufacture tube sizes of **CHS upto 457 mm OD, SHS 350 mm x 350 mm** and **RHS 400 mm x 300 mm**.

2020

Constant R&D enabled production of Warehouse Racking Systems, Cantilevers and Crash Barriers for highways.

2021

Expanding horizons, Commissioned a new **Hot Dip Galvanized Plant** for galvanizing tubes and structures.

2023

Received **ISO 14001:2015, ISO 45001:2018** certification along with CE certification.

2024

Commissioning of a new **DFT mill** with a capacity of **2,00,000 MTPA**

2025

Commissioning 4 new high speed Solar Module Mounting Structure mills increasing our production capacity to **100000 MT**.

Being the only pipe and tube manufacturer in southern India to commission tube line with laser cutting technology for sizes upto 24" (610OD)

20+
Years

1100+
Products

800+
Customers

Workforce

**State-of-the-art
manufacturing
facilities.**

- 2 Manufacturing Units
- 32 Production Lines
- 5,00,000 MT Annual Capacity

METPRO PRIME

METRO PRIME is known for its wide range of circular, square and rectangular hollow sections. MKK specialized in high tensile, high grade ERW pipes and tubes using only the best of raw materials. Customization in terms of length, bevelled end or fin cut, along with hydro testing is provided on request. MKK has been the trusted partner for providing tubes of grades matching from **YST-170, YST-210, YST-240, YST-310, YST-355, YST-400, YST-450** and **YST-530** are used for heavy machinery and industrial purposes.

Our Capacity
5,00,000 MT
in 9 lines

Our Product Range

Wall Thickness (mm): 0.7 - 12.7 | Length (m): 4 - 18

12.7 OD
610 OD

**Circular Hollow
Sections (CHS)**

15 x 15 mm
350 x 350 mm

**Square Hollow
Sections (SHS)**

26 x 13 mm
450 x 250 mm

**Rectangular Hollow
Sections (RHS)**

METPRO GALV

Value addition is a part of MKK's vision since the start. Moving a step ahead, MKK has set up a new **9mtr semi-automatic galvanization plant** in Ranipet, Tamilnadu. Galvanization is the process of applying a protective zinc coating to steel or iron in order to prevent premature rust or corrosion. The corrosion of zinc is very slow which gives it an extended life while it protects the base metal which results in a low cost long-term.

**Coating
Thickness**

65 µm - 150 µm

**Certified by
BIS ISI Mark**

IS 1239, IS 1161, IS 3601

**In-house
Quality Checks**

Uniformity test,
stripping test, adhesion
test, coating thickness,
surface thickness

Applications

Household Structural
Application in
Coastal Regions

Greenhouse
Structures

Transmission
Line Towers

Structural applications
(Solar power plant & wind mills)

Plumbing and Agricultural
(Water & irrigation transport)

We have an in-house Galvanising Plant

MKK offers GI Round Sections in sizes ranging from **15mm NB to 450mm NB** and thickness and length as required by the customer. We also specialize in galvanizing of solar mounting structures, solar pump structures and such which are also manufactured in-house, making MKK a one stop solution for industrial structural needs.

Our Products •

Environmentally Sustainable

Abrasion Resistant

Maintenance-Free Life of 15 Years

SOLAR MODULE MOUNTING STRUCTURES

Today, being environmentally conscious and reducing our carbon footprints is the only way to go forward. With our ENVIRON range of products, METPRO is trying to do its part in maintaining a cleaner and greener Earth.

MKK builds module mounting structures that are the backbone of a solar power plant. These support structures raise solar panels at appropriate angles to ensure that they receive maximum solar irradiation.
